The new environment created by the COVID-19 pandemic has upended our regular lives, and many of us are now either getting ready to provide State-approved [Telehealth services](#) or are already providing services online or on the phone.

This newsletter provides resources for you as you navigate the new landscape with [resource links](#) to all state and national guidance, as well as tips for leading effective virtual meetings and webinars.

While we are working from home during the Stay at Home order, CADTP will remain fully open throughout the pandemic. We continue to be available to answer your questions and process your [new registrations](#) and [renewals](#) for your certification.

***Stay safe and be well!***
